- 18-18 FINA World Cup 1, College Park, MD
- 30-2 US Open (25 M), Auburn, AL

ABOUT THIS ISSUE

We cover all the February activities in Canada and the European conclusion to the 2000 FINA World Cup.

With 10 world records and three Canadian category winners (Michael Mintenko 50 and 100 butterfly, Kelly Stefanyshyn 200 backstroke, and Jennifer Button 200 butterfly, bettering the Canadian record twice), the long three-month series had its ups and downs. See our summary of four of the five European meets and some commentary on pages 13-15.

The major competitions during February were the East/West Junior/Youth Nationals and the CIAU University Championships. Everyone is still in a swim-through mode preparing for Olympic Trials, so the times were generally ordinary. The merged results for the Junior/Youth Championships appear on pages 6-7.

This month's TOP entries of 850 swimmers was one of the largest ever. Find results for all entries on pages 8-10. Next opportunity to take part will be in April for the May issue.

Ryk Neethling (RSA) is a leading freestyle contender. His dramatic improvement after he enrolled at the University of Arizona was particularly noteworthy last summer at Pan Pacs where he placed third in the 200-400-1500 freestyle. Russ Ewald tells his story on pages 18-19.

Everyone can always use more confidence. Wayne Goldsmith explains on page 20 how to go about it. And in a similar mode Judy Goss explains how to *just relax* on page 19.

Karin Helmstaedt tells the story of her second cousin Jorg Sievers, who died under suspicious conditions in 1972. One of the doctors involved in this incident still denies any knowledge of or involvement with drug use in the former GDR (East Germany).

TAG times are updated to the end of February and include many missing results from Quebec.

In our next issue there will be coverage of the SC World Championships in Greece, the men's and women's NCAA, for the first time in a 25-m pool, and Canadian Spring Nationals.

COMBINED JUNIOR/YOUTH RESULTS

2000 JUNIOR/YOUTH NATIONALS

Feb 18-20 (25 m pool)

East - Nepean / West - Kamloops

BOYS

50 METRES FREESTYLE

3 WORLD RECORDS IN BERLIN BRINGS SERIES TOTAL TO 10

WORLD CUP 8

Anita Lonsbrough

SHEFFIELD-Ian Thorpe cruised to victory in the 200 freestyle and then called for blood testing to rid the sport of drug abuse. In the pool he was his usual majestic self, winning in 1:44.82.

He admitted to "feeling comfortable in the race and I didn't expect to go that fast," adding "the last 100 was as fast as my last 100 when I set the world record."

Martina Moravcova (SVK) and Terence Parkin (RSA) were the most successful swimmers of the two days. Both collected four victories each.

Moravcova gained a double over Susan Rolph (GBR). In the 100 free Moravcova clinched victory with 54.51. Third place went to one of China's new kids on the blocks, Yu Yang, in 54.71.

The 100 individual medley was Moravcova's fourth victory. She led the field from the start, but Rolph closed down on her on the breaststroke leg. But Moravcova proved too strong over the final freestyle, winning in 1:01.34, half a second ahead of Rolph.

Terence Parkin (RSA) had four wins and three personal best times. Parkin opened Day Two with a 1:01.48 win in the 100 breaststroke, an African and RSA record. Parkin was born with a severe hearing disability.

In the 200 IM, James Hickman (GBR) led from the start but Parkin moved into the lead on the breaststroke leg. Parkin's time of 1:57.87 was a personal best by

nearly three seconds and another African and RSA record.

Hickman made up for his rare defeat in the 200 butterfly on Day One with a runaway win in the 100 fly. The short-course specialist celebrated his 24th birthday with a swim of 51.68.

Lenny Krayzelburg (USA) completed a clean sweep of the backstroke events. In the 50, he touched home in 24.39, his second-best time ever. In the 200, for which he holds the world record in both the short- and long-course pool, the 24-year-old was ahead of his record pace at the 100 but finished short of his record in 1:53.96.

WORLD CUP 9

Karin Helmstaedt

BERLIN-The Germans really know how to create an atmosphere: Three more world records and the Australians angered by questionable drug-testing.

It all started at the World Cup in Sheffield. German National Coach Manfred Thiesman let a careless comment slip. He told a journalist that when Australian freestyle wonder Ian Thorpe set his 200 freestyle world record at the World Cup in Sydney last January, he shook his head and wondered how it was possible to swim so fast. And he wasn't the only one.

It didn't take long for the comment to tour the globe and embitter the already-strained relationship between German and Australian swimming. Thiesmann was

shot down by the Australians as having accused their most inspiring athlete of being doped. The coach denied it, saying he'd been misquoted.

Thorpe himself arrived in Berlin and refused to attend the press conference. The Australian team was on the defensive, and there were rumours Thorpe wanted to get out of there as fast as he could.

Nevertheless, the 17-year-old won the 100 freestyle in 48.36 as well as the 400 freestyle with 3:39.03 on the first day. But things didn't get any better. Insult to injury came in doping control, when FINA's appointed doctor Luebs didn't have the correct package in which to seal the already sealed A and B samples.

When Thorpe questioned the procedure, the doctor claimed that he didn't have the outer packaging, but that he would keep all the samples together overnight before sending them off the next day for analysis.

Thorpe, along with American Lenny Krayzelburg—who had just clocked a world record in the 100 (51.28)—and three other swimmers, refused to accept the haphazard storage proposal. What ensued was yet another protocolic nightmare that cast a shadow over what could have been just a great meet.

Thorpe walked out of doping control with his urine samples in his hand, and went to find team leader Don Talbot. The problem wasn't solved until the police came in and sealed the individual samples. Only then, after three hours of uncertainty as to the fate of their tests, could the swimmers return to their hotels.

The Australian team considered scratching the rest of the meet and flying on to Imperia early. But in the end they swam the heats. After making the final in the 200 freestyle, a disillusioned Thorpe wanted to forget all about the final.

Talbot convinced him to swim, and in just three hours the Thorpedo turned it all around. He went into the final in a full bodysuit, exploded from the block, and it was all over. It was a swim that made a statement: Thorpe clocked a new world record of 1:41.10 and the bitterness was gone.

For his coach Doug Frost, it was a little bit of retribution. "It's really unfortunate that we came in here in the wake of those comments," he said. "We wanted to go for the record in the 400 yesterday but that sort of brought things down. But this should have him back up."

Lenny Krayzelburg also added a second world record in the 200 backstroke with his time of 1:52.43. He just missed the record in the 50 back with his winning time of 24.17.

After nine World Cups, the tally of world records had reached 9.

Thorpe's 1:41.10 was the top performance (1040 points) of the meet, earning him the Wrangler Jeep (DM 50,000 value) for the feat. After three victories in both Sheffield and Berlin, Thorpe had 10 wins in the last four World Cups and two world records. Thorpe didn't want

Chad Carvin (USA) winner of the 400 free and 1500 free World Cup categories

Marco Chiesa

the prize, donating it to UNICEF.

Krayzelburg's two world records didn't win him the Jeep, but he was satisfied with his performances. "After all, the prize money (US \$4,000 from FINA) for a World record and the additional money (DM 5,000) here in Berlin are not bad either. Perhaps I'll be able to improve this time already at the World Short Course Championships in Athens."

Krayzelburg also acknowledged he had come to Berlin to give his German competitors a taste of what they're in for in Sydney. "My aim is to let them know they'll be swimming for second place," he said of German champions Ralf Braun and Stev Theloke. Given the look on Theloke's face as he watched Krayzelburg's swim from the bleachers, they're getting the message.

As for the doping story, the irony was complete on the deck of Berlin's new super complex. The FINA Medical Commission got high marks for supplying a doctor who doesn't know the rules. Luebs, from Kassel, insisted the trouble was caused by the fact that he didn't have the most up-to-date packaging, a claim that only caused more confusion.

Meanwhile, anyone looking around the deck could spot former East German dopers Wolfgang Richter, Uwe Neumann, and Volker Frischke. All three coaches have been fined for their involvement in the doping system. Yet all three men are still on the pool deck, gainfully employed. And Manfred Thiesmann, for his wagging tongue, may lose out on his berth to Sydney. The German Federation couldn't have made a clearer statement of its inconsistency if it had tried.

The Australian Federation subsequently proposed that the Berlin drug samples be destroyed, whereby Thorpe's world record could no longer be validated. FINA has yet to decide on the matter, but Thorpe says he could live with that. No doubt he figures he could just swim it again.

WC 9 Berlin Rating Summary

1)	1040	1:41.10	200 free M	Ian Thorpe, 82,AUS
2)	1029	51.28	100 back M	Lenny Krayzelburg, 75,USA
3)	1005	1:53.28	200 fly M	Tom Malchow, 76,USA
4)	1004	1:55.50	200 free W	Yu Yang, 85,CHN
5)	1004	58.89	100 back W	Barbara Bedford, 72,USA
6)	998	2:08.27	200 breast M	Terence Parkin, 80,RSA
7)	997	1:56.10	200 free W	Martina Moravcova, 76,SVK
8)	994	26.33	50 fly W	Ashley Tappin, 74,USA
9)	992	3:40.66	400 free M	Chad Carvin, 74,USA
10)	991	1:07.04	100 breast W	Sarah Poewe, 83,RSA

Back from illness

Jana Klochkova (UKR) had easy wins in the 400 free with 4:07.75 as well as in her specialties, the 200 IM in 2:10.77 and the 400 IM 4:35.01.

Martina Moravcova (SVK) winner of the 100 free with 54.29 and the 100 IM with 1:00.86, showed that she is returning to form after thyroid surgery last year. "I've recovered quite well after the long break. But I'm not able to do top performances. I still have problems

Laura Nicholls (CAN) finished in top three in four freestyle categories

Marco Chiesa

adjusting to the medications to correct my thyroid function and this is why I'm often tired. Workouts are also strenuous. But then I'll probably have to live with it for the rest of my life. This year's highlights are of course the Olympic Games, but I will also participate in the World Short Course Championships in Athens," she said.

American swimmers were in record form. In addition to Krayzelburg's two backstroke records, Tom Malchow's winning 200 fly (1:53.28) lowered his five-day-old mark of 1:53.61. Chad Carvin was second in the 400 free but his 3:40.66 was a new record, as was his win in the 1500 free with 14:43.69. Barbara Bedford completed a sweep of all three backstrokes with World Cup records in the 50 of 27.62 and the 100 with 58.89. Her winning time in the 200 was 2:08.60.

Other records: Canadian Laura Nicholls set a new national mark in the 200 freestyle with 1:57.56. There were also 6 African, 2 Asian, and 2 Commonwealth records.

WORLD CUP 11 Anita Lonsbrough

PARIS-Jenny Thompson was disappointed that none of her European rivals took part in the penultimate round of the World Cup series here in Paris, but issued a warning of what she might be capable of in Sydney.

Thompson (USA) bettered her own 100 fly record with 56.80 (split 26.66); the old record was 56.90 (26.51) from December 1, 1998. "I'm really excited about this," she said. "When I did my warmup I felt a little better than normal, but I didn't expect this at all."

On Day One, she also won the 50 freestyle in 24.94. Day Two saw her show her rivals just what a tough competitor she can be, winning all three of her starts. They were the 100 freestyle (53.73), 100 individual medley (1:01.22.), and the 50 butterfly (26.54), the last two coming within 10 minutes of each other.

Thompson, competing in her fourth World Cup, was undefeated in all her swims for a total of 19 wins and two world records. She already clinched top points for the 50 and 100 freestyle categories (worth US \$4,000 each), with one more competition remaining.

Roxana Maracineanu (FRA) bettered national records in the 200 backstroke with 2:08.27 and in the 100 with 1:00.56, which was second to Natalie Coughlin's (USA) winning time of 59.42.

James Hickman (GBR) won all of four of his events. His important wins were his butterfly races. Having suffered a rare defeat in the 200 in Sheffield eleven days earlier, it was important physiologically for him to win. Hickman won the 200 fly with 1:52.26, the fastest time in the world for the season. He also won the 100 IM with 54.79, the 100 fly with 52.53, and the 200 IM with 1:57.30 over Marcel Wouda (NED) with 1:58.35.

American swimmers won 10 gold (9 from women). The host country France won 4 gold and tied with Great Britain (whose golds were all won by Hickman).

WORLD CUP 12 Camillo Cametti

MALMO-Therese Alshammar (SWE) showed why she has become one of the top sprinters this winter. She even-split the 100 freestyle with a 26.75 at the 50, and then swam 26.88 for the second half for a total time of 53.63.

"I'm taking aim at the Short Course Worlds next month in Athens," Alshammar said. "It makes more sense to break a world record there because of the \$15,000 bonus available. I was swimming to win here in Malmo."

On the first day Alshammar won the 50 freestyle with 24.43, a World Cup record. It bettered the old record of 24.56 by Jenny Thompson (USA) from 1998. Alshammar broke the world record in December with a 24.09.

WORLD CUP COMMENTARY

Nick J. Thierry

With 12 competitions over four months, the 2000 FINA World Cup series started with a big bang at College Park, Maryland (USA) and three world records.

The highpoint of the Series was World Cup 7 in Sydney in mid-January. Two world records and 12 World Cup records made this the fastest-ever competition of the last 10 years.

At the end of the series, 10 world records in 7 events were bettered; 25 World Cup records were bettered in 19 of the 34 events.

A total of US \$239,500 was distributed to individual category winners and an additional \$40,000 to world-record setters.

Each event was a category, for a total of 34 (17 men and 17 women). Prizes for the top three scorers were US \$4,000, \$2,000 and \$1,000. Swimmers could score in more than one category. In each meet swimmers could score points for their two most successful swims (out of three possible) in each category. No more than two of the best meet scores in individual events could be counted from Zone 1 (Americas and 2 (Asia/Oceania) and no more than three from 3 (Europe). There was \$40,000 available for world records, and with 10 total each one was worth \$4,000.

Top winners were:	Categories	Records	Totals
THOMPSON Jenny,USA	18000	8000	26000
KRAYZELBURG Lenny,USA	10000	12000	22000
THORPE Ian,AUS	6000	8000	14000
XIE Xufeng,CHN	9000		9000
CARVIN Chad,USA	9000		9000
SZABADOS Bela,HUN	9000		9000

Canadians won a total \$29,000 in prize monies. The cost of travel for these athletes was probably five times as much.

That's the good news.

With 12 competitions, only three could be considered first rate: WC 1 College Park, WC 7 Sydney, and WC 10 Berlin.

The others ranged from ordinary to mediocre. This being an Olympic year, many swimmers opted to compete in one or two meets, usually close to home.

The requirement that each host country send at least four athletes to the other competitions is fine in principle, but does not guarantee top-calibre athletes. The cost of hosting these meets is the same for a slow meet as for a fast meet.

Each host competition contributed \$15,000 towards the final prize monies, with FINA adding the rest.

It is proposed that future World Cup series increase the prize total substantially—the figure of \$100,000 per competition has been suggested. Splitting future series into an A and B series has also been proposed. Nothing has been finalized.

Sweden ended the competition with most golds with 5, with 10 countries sharing in the 17 golds.

Lorenzo Vismara (ITA) won his third consecutive 50 freestyle with 22.00, his fastest time. This gave him top points with 100 with four firsts for the 50 freestyle category win.

Tomislav Karlo (CRO) had to win the 50 backstroke to win the 50 backstroke category, which he successfully did in 25.36. This gave him three wins, one second, and two thirds for 114 points, just 1 point ahead of Lenny Krayzelburg (USA) with 113.

James Hickman (GBR) was an easy winner in the 100 butterfly with 51.67, with Michael Mintenko (CAN) in second with 52.92. Hickman swept the 100 and 200 fly at the final two World Cups.

Phil Rogers (AUS) won the 100 breaststroke in 1:01.20 over Yu Daqing (CHN) with 1:01.41. Rogers moved into the points lead with 92 in this category, having also clinched the 200 breaststroke category surprisingly, with only one first in the four World Cups in which he took part.

Women's Highlights

It was a close race in the 100 backstroke with Anu Koivisto (FIN) first with 1:01.28 and Kelly Stefanyshyn (CAN) second with 1:01.32. Stefanyshyn's time moved her into second overall in this category, giving her a total prize of \$6,000. (She had won the 200 backstroke category the previous day). Koivisto also won the 100 IM with 1:02.43.

Agnes Kovacs (HUN) completed the sweep of the breaststroke events. She first disposed of Sylvia Gerasch (GER), winning the 50 in 31.75 to 32.19. Then she won the 200 in 2:24.52 over Brigitte Becue

(BEL) with 2:25.95.

In the 400 IM, Beatrice Caslaru (ROM) again prevailed with 4:36.33 over Cristina Teuscher (USA) with 4:37.38. They raced for top spots in the 200 IM the previous day with the same finish. Caslaru had top points in both IM categories, with 121 points in each. She had five firsts and a second in both events, competing in six World Cups.

Sweden ended the competition with the most golds with 5, with 12 countries sharing in the other 29 golds.

Kelly Stefanyshyn (CAN) won 200 back
Marco Chiesa
category, second in 100 back

GIFTED SWIMMER NOW A LEADING OLYMPIC MEDAL CONTENDER

Russ Ewald

Competition between U.S. college coaches to recruit top swimmers to their schools is fierce. It usually involves a lot of phone calls and letters. The swimming prospects get a free trip to visit the campus, too.

Incredibly, Ryk Neethling got none of that. Instead, when the South African competed in the 1995 Pan Pacific Championships in Atlanta, he approached coaches to solicit a scholarship. Coming to America for a free education had been his No. 1 goal as a youngster because, until 1992, his country had been banned from competing in the Olympics.

Neethling, a 3:58/15:27 distance swimmer who had been lapped by Australian star Kieren Perkins in the 1994 Commonwealth Games, first approached Michigan coach Jon Urbanek. The Wolverines were the defending NCAA champions and featured distance stars Tom Dolan and Eric Namesnik. But Urbanek, says Neethling, told him Michigan had no scholarships available. Later, the South African high school senior met Arizona coach Frank Busch on the deck of the Atlanta pool. He knew about Arizona's strong tradition in the distances.

"I didn't know him well," recalls Busch. "I talked with his coach (former Great Britain distance standout Simon Gray). I saw him swim. He had a nice stroke and a great feel for the water. So we communicated when he went home to South Africa. The more I talked to him, the more I wanted him to come here."

Neethling dropped his time to 15:14.63 in the 1500 and finished fifth in the Olympic Games the following year before joining the Arizona squad.

At Arizona, Neethling has dominated the distances. He won the 1650 yard freestyle at the NCAA Championships the last three years and the past two seasons added victories in the 200 and 500 freestyles. He's only the eighth swimmer in the 78-year history of the men's NAAs to complete a "double triple"—winning three events back-to-back. He's the second-fastest performer ever in the 1650 behind Dolan.

"I think everyone dreams about their kids, thinking that this guy might turn into a great one," says Busch. "You hope, but you never know."

If Neethling is successful in defending his three titles again as a senior, he will become only the second college swimmer ever to record back-to-back-

to-back triples. (Pablo Morales was the first during the 1980s.) His chance to make history is good.

But Busch warns, "(Erik) Vendt (of USC) is swimming real well (in the 500). And (Chris) Thompson (of Michigan) is tough (in the 1650). It will be no cakewalk. But it never has been. He had to race Bela (Szabados of USC) two years in a row. And Bela is a classic 200 freestyler."

Even with his American success at short-course

Triple-triple possible at NAAs

Bill Collins

yards, Busch thinks Neethling is probably better at long course because he is "very much a rhythm swimmer. However, college swimming is so team-oriented. That is something he thrives on. When you get in a team atmosphere like at the NCAA Championships, people pull off all sorts of great performances."

Neethling has improved his long-course swimming at Arizona to become a leading medal contender for this year's Olympics. He met Perkins again in the Commonwealth Games in 1998 and touched out the two-time Olympic gold medallist for second (15:02.88) in the 1500 behind Australia's Grant Hackett. This past season Neethling made tremendous strides in the middle distances, dropping

to 1:48.17 and 3:46.51 for a pair of bronze medals at the Pan Pacific meet, along with a silver in the 1500 (15:02.40).

The Arizona senior has tremendous range in the freestyles. He set a South African 100 m freestyle record of 50.13 last March at his country's nationals—a record later bettered by Roland Schoeman, his roommate at Arizona. In a dual meet against Arizona State, he anchored the 200 yard free relay in 19.9 unshaved.

"That was a freaky performance for a distance guy," proclaims Busch. How can someone swim that well in such a wide range of freestyles? "I don't necessarily know how to answer that," says Busch. "He's got the gift."

Neethling chose distance swimming as a youngster mainly because he was so small. He stood just 5-foot-3 (1.57 m) as a 15-year-old before shooting up during his junior and senior years in high school to stand 6-foot-5 (1.92 m) with a pair of huge feet.

How fast could Neethling be if he trained for the shorter events?

"I can't tell you how many people have sent suggestions like that to me," says Busch. Sprinters can produce many more points for their team in the NAAs than distance swimmers because of the five relay events.

Neethling likes to race the sprinters in practice. "I love any kind of competitive activity," Neethling says. "Behind the scenes, I work on my sprinting."

Most of the time, though, the distance standout puts in a lot of yardage. If he swim yards, he averages 9,000 a workout; if metres, he does 8,000 or a little more. One day a week he goes either 11,000 yards or 10,000 metres. For a week, he goes 75,000 to 80,000 metres.

Nevertheless, Busch believes yardage is not a huge factor in his swimmer's success. "How much we do is not always important," he explains. "What's important is doing it when it's time to do it. There are times when he swims for technique. Other times he swims for aerobics. And there are times when he needs to swim at race pace and faster. You just have to make sure you get enough of all of it at the right times."

The Arizona coach added that Neethling swam "as amazing a practice as I've ever seen" when the swimmer once did a set of 20 long course 100s on 1:05 and held 1:01s.

JUST RELAX!

At this time of the year, many swimmers are preparing for competitions for the end of the short course season. Most swimmers will be tapered and will have high expectations for what their results may be. Along with high expectations comes pressure and stress.

The feeling of butterflies in your stomach, the urge to go to the bathroom, yawning before you swim are all examples of how your body feels nervous. Some of these feelings are an important part of the swimmer's ideal performance state, however, there are times when those nervous feelings are overwhelming and can cause you to lose your focus. So what do you have to do? It's easy, right – "Just Relax!"

"But how?" is what I use to say when my coach or parents would tell me just relax. The "how to" was never explained to me. Here are a few things that might help you.

1. Try to focus on just one thing: your race plan, the music on your walkman, visualization of your event, or a nice quiet image in your mind. When you completely focus on one thing, it engages your mind and keeps it from focusing on the negative thoughts or worries. If you are truly focusing on just one thing, it will help to not only relax your mind but also your body.

2. If you find it difficult to keep your mind focused on just one thing, try to relax your body by focusing on your breathing, your stretching, or the rub down you might be getting. If you are focusing on how relaxed your body feels, your mind is not focused on negative thoughts or worries.

3. Review the goals you have set and your race plan to keep your focus positive and process oriented.

4. It is important to remember that throughout your pre-competition preparation, you should make sure that there are opportunities for you to check your body and your mind to make sure that you are progressing towards your ideal performance state. You don't want to be standing behind the blocks and realize that you are now overwhelmed with anxiety and nervousness.

Remember that it is OK to be nervous and don't expect yourself to be completely calm. You have to experience your ideal performance state before you can get there again. If you have any other questions, just send me an email at:

gossj@dalessmann.com

Judy D. Goss, Ph.D., is a sport psychology consultant with the National Sport Centre – Toronto

Neethling's times at the Pan Pacs would have earned him a gold in the 400 free, silver in the 1500, and bronze in the 200 at the Atlanta Olympics. However, he is far behind the top-ranked swimmers for 1999 with sensational Australian Ian Thorpe having set world marks of 1:46.00 and 3:41.83, and Hackett doing 14:45.60.

"I tell you what," says Busch about Neethling's predicament. "That's how life is. You just have to come to grips with it and get excited about it."

Neethling is not giving up the battle. "I am not going to lay down just because those guys are swimming like a house on fire," he says.

The Aussies get to swim in their home country, but Neethling doesn't necessarily think that will be an advantage.

"That brings added pressure," he says. "Who knows what can happen? As far as the Olympics are concerned, what happened the previous year doesn't matter. It all depends on what happens on that day."

One thing for sure, Neethling knows he can do better in the 1500 than at the Pan Pacs.

"That meet was a trial run for the Olympics," he explains. "With a new eight-day format and having to swim the 200 three times, I was tired at the end. I was looking for a good swim way under 15 minutes, but I am not going to break my head over that. I figured out what I need to do. Next year I will do what needs to be done. It was a great trial run, having the opportunity to swim in the same pool with the same time schedule as the Olympics."

He also learned that the Aussies, unlike South Africans or Americans, have a fanatical interest in swimming.

"I am not used to going back to the hotel and people recognizing me and asking me questions," he relates. "The Australian people and media take their swimming seriously. Because I swim the mile, I kept getting asked for an autograph or questions about the race between Hackett and me, or about Thorpe. That is something else I will try and avoid next summer."

Neethling also knows he must get stronger. After having avoided weights, he is lifting some now, along with a dryland program that includes a daily regimen of situps and pullups and work with a medicine ball. However, he isn't sold on the merit of pumping iron.

"I am not too sure what others are doing," he says. "I don't want to concern myself with what other people are doing too much."

"I know Hackett is lifting weights. But you have others lifting and swimming 15:20. I think it all depends on the person and the kind of work you do in the pool."

"I do my work in the pool. A lot of my strength training is done by doing a lot of yardage pulling, trying to get my shoulders strong."

Unlike some others who drop out of school the

Olympic year, Neethling is not going to change his routine. He will compete for Arizona this season.

On his decision, he admits, "It was hard. Eventually, it wasn't that hard. I am having finals now. The last thing I want to think about now is studying with the big year in swimming coming up for me. But I just think school is important to me. I am not going to swim my whole life."

"Besides the academic reason, we have the best swimming team at Arizona in the school's history. We have a shot at winning the national title. This is my third year as captain. My goal has been to make the team members believe in themselves. My freshman year we were 16th. We have moved up to 6th and 5th the last two years. I will have three to four months to train for the Olympics. That will be fine. But it was definitely on my mind."

Neethling, who is majoring in psychology with a minor in business, plans to continue swimming after the Olympics. He is thinking of altering his program, though, shifting down to swim the 100 free more.

"Training for the mile gets tiring after eight years," he says. "I think I can be very good in the 100."

QUICK FACTS : RYK NEETHLING

BIRTHDATE	17 November 1977
HEIGHT	6' 5" / 195 cm
WEIGHT	195 lb / 88 kg
HOMETOWN	Bloemfontein, South Africa
SCHOOL	University of Arizona
COACH	Frank Busch
OCCUPATION	Student

LONG COURSE PROGRESSION

(World Rankings in brackets)

Year	200 free	400 free	1500 free
1999	1:48.17 (6)	3:46.51 (3)	15:02.40 (2)
1998	1:50.03 (24)	3:50.95 (9)	15:02.88 (3)
1997	1:50.94 (47)	3:54.58 (23)	15:39.91 (41)
1996	1:52.03 (86)	3:54.34 (22)	15:14.63 (8)
1995	3:58.00 (68)	15:27.50 (15)	
1994	3:58.60 (67)	15:41.03 (46)	

Note: Neethling got sick at 1997 Pan Pacs and thus never swam an unshaved 1500. He swam 50.13 in the 100 in 1999 to rank 25th in the world.

NCAA RESULTS (25 yards)

1999 1st 200 free 1:33.59, 1st 500 free 4:13.80, 1st 1650 free 14:35.57

YES YOU CAN!

The Importance of Self-Confidence in Achieving Your Swimming Goals Confidence is a Skill—A Skill that Can Be Learned

Wayne Goldsmith

“Belief is the knowledge that we can do something. It’s the inner feeling that what we undertake, we can accomplish. For the most part, all of us have the ability to look at something and know whether or not we can do it. So, in belief there is power: our eyes are opened; our opportunities become plain; our visions become realities.” (unknown).

Have you said (or thought) any of the following in the past few months?

“I can’t do it.”

“They are much faster than me. I’ll come last.”

“I’m hopeless.”

“I’ve never been able to do that, so I know I can’t do it now.”

“It’s just too hard. It’s impossible.”

You are not alone. Many swimmers have these thoughts and say these words from time to time. Most swimmers (and people generally) have times when they get a little negative and lack faith in their abilities.

When swimmers say “I can’t” or “It’s too hard,” what are they really saying?

Swimmer says: “I can’t do it.”

Swimmer means: “I am not prepared to try because if I fail I will look like a loser and people might think less of me.”

Swimmer says: “They are faster than me. I’ll come last.”

Swimmer means: “If I can’t win there’s no point trying.”

Swimmer says: “I’m hopeless.”

Swimmer means: “I have no faith in myself or my ability to succeed. I have no confidence.”

Swimmer says: “I’ve never been able to do that, so I know I can’t do it now.”

Swimmer means: “I’ve never really prepared for this or learned how to do it correctly so the chances of me doing it now are not very good.” or “I tried once and failed, so I am not going to try again.”

Swimmer says: “It’s just too hard. It’s impossible.”

Swimmer means: “I’m not prepared to try.”

Confidence is: believing in yourself to do what has to be done; to do what needs to be done, with faith in your ability to achieve it; to meet new challenges with an expectation that anything is possible; to accept failure as an opportunity to learn from the experience and try again. And try again. And try again if necessary. Confidence is trying to achieve and if you fail, knowing that it was the nature of the task or the circumstances or just plain bad luck, not your lack of character, that is to blame. Confidence is learning from that failure

and trying again with more energy, more commitment, and greater determination than before.

What do some of Australia’s most successful people say about confidence?

“Confidence comes from accepting a challenge and achieving it using the best of your ability. Confidence builds through training to meet your challenge”. Phil Rogers (Commonwealth Games and Olympic Medallist).

“Confidence is about believing in yourself and your ability to do something—not necessarily believing in your ability to do it perfectly or better than other people, but believing that you have as good a chance as anyone to achieve something. Confidence is having the courage to get up and try and face whatever the outcome is—good, bad, or something in between.” Chloe Flutter (Australian Representative Swimmer, now a Rhodes Scholar).

“In my experience, confidence is best achieved through controlled independence. If a young athlete is constantly challenged to be independent (within reasonable bounds), they will learn to rely on themselves and know how to thrive without the assistance of others in moments of greatest need. The ability to follow good decision making processes is a crucial part of this. For young athletes, teach them to take personal responsibility (control the controllable and develop a chameleon-like ability to deal with the rest). Confidence is the ability to believe you can do something and the courage to do it— if others have made the hard decisions for you and you have never had to live with the results of your own actions, you can never be expected to know full confidence and the power of the self”. Marty Roberts (Dual Olympian, Commonwealth Games Gold Medallist, University graduate, father of two).

“Attitudes such as belief, optimism, high aspirations, and anticipation of the best possible result—all these positive states of mind add up to confidence, the keystone for success. But of course it pays for all of these to be built on the firm rock of a sound preparation.” Forbes Carlile (Legendary Coach, successful businessman, author, leading anti-drugs in sport campaigner)

Confidence, it seems, is a skill—a skill that can be learned. You learned to swim. You learned to tumble turn. You learned how to do butterfly. You can learn to be confident.

Leading Melbourne-based Sports Psychologist Dr Mark Andersen agrees: “Many people believe that confidence is something that comes from the inside, but we probably develop confidence from the models we have around us, that confidence really comes from the outside. If we have coaches, parents, teachers, and

instructors that model confidence in our abilities and let us know that they think we can do good things, slowly their confidence in us becomes internalized.”

This is called the Ladder of Achievement. It shows how your attitude towards a goal or task can impact on your ability to achieve it.

LADDER OF ACHIEVEMENT

100% I DID

90% I WILL

80% I CAN

70% I THINK I CAN

60% I MIGHT

50% I THINK I MIGHT

40% WHAT IS IT?

30% I WISH I COULD

20% I DON'T KNOW HOW

10% I CAN'T

0% I WON'T

The ladder of achievement suggests that an attitude of “I can’t” has almost no chance of success while “I won’t” has no chance at all. Change “I can’t” and “I won’t” to “I can,” “I will,” “I did!”

Here are a few tips to develop confidence:

Accept who you are and learn to like and respect yourself. Nothing helps build confidence like learning the 3 Ps.

PRACTICE to the best of your ability.

Develop a POSITIVE ATTITUDE to trying new tasks.

PERSEVERE, PERSEVERE, PERSEVERE.

Understand what motivates you to do well; then you can harness your energy in the right directions.

Failure is a race or a meet or a task—it is not a person. Failure is not the person: it’s not you—it’s the performance. Learn to separate who you are from what you do.

Learn to talk to yourself...positively. When the negative thoughts come, learn to replace them with positive ones:

I can’t = I can, I won’t = I will, I will try = I did. Remember the old saying, “If you think you can or think you can’t you’re probably right.”

“The greatest achievement is not in never failing but in getting up every time you fall.” Keep trying and it will happen.

What you believe, you can, with effort and persistence, achieve. Dream a dream, believe in that dream, work towards achieving it, and live the dream.

Anything worth having is worth working to achieve. Talent is important, but there are many talented swimmers who don’t make it to the top.

TOUGH, TENACIOUS TRAINING makes up for most talent limitations.

Successful people are not afraid to fail. They have the ability to accept their failures and continue on, knowing that failure is a natural consequence of trying. The law of failure is one of the most powerful of all the success laws because you only really fail when you quit trying.

BACKWASH

Backwash features short clips, gossip, letters and opinions. Contributions are welcome at our e-mail: swimnews@inforamp.net. Now for the rumours behind the news.

Go figure: First we learned that Penny Heyns donated her prize money of AUS \$25,000, won last August for setting the first long-course world record in the Olympic pool, to poor children in Sri Lanka. In Berlin, at the conclusion of World Cup 9, Ian Thorpe received the Jeep Wrangler for the top performance, his world record of 1:41.10 in the 200 freestyle. He then donated the prize to UNICEF (the United Nations Childrens Fund).

Thieves score big: With just six months to go until the Olympics, the theft of 1,575 vials of human growth hormone (hGH) is seen as highly significant. The theft of a huge quantity of an undetectable body-building drug from a Sydney importer has raised serious concerns among sports officials and doctors about whether Australia's elite athletes are "clean."

"We are talking about the power, strength and sprinting-type sports," said Dr Greg Clarke, a Perth-based sports medicine specialist. "Yes, they will get extra benefit and they will see it within about three weeks." Athletes, body-builders, and "gym junkies" are the only likely black-market buyers of hGH. It is understood that there is a vigorous underground trade in the drug, which costs about \$300 for each injectable batch. Police say the theft happened at a Frenchs Forest pharmaceutical importer and wholesaler at 2:15 a.m. on January 28 and that the burglars were unusually exact.

Another swim program dies: The University of Miami will disband its men's swimming and diving and crew teams after this season, reports the *Miami Herald*, in order to comply with Title IX gender-equity laws, athletic director Paul Dee confirmed. The school also plans to launch a women's volleyball program within the next two years, Dee said. The moves were formally announced in late February. UM swimmers, who learned of the plan over the weekend, were distraught over the news.

The moves will leave UM with seven men's sports, one more than the minimum for Division I certification. Adding women's volleyball will give UM teams in 10 women's sports. The Title IX gender-equity laws were introduced to ensure equal numbers of athletic scholarships are available to female and male athletes. The scholarship numbers are thrown out of whack by the inclusion of football, which gives out 85 scholarships and can have as many as 20 walk-ons. The men's swimming team already suffered a blow two years ago, when UM cut all but three scholarships that were being held by nationally ranked divers. The program reduced its travel, competing outside the state only twice this past season. Some UM swimmers were able to get partial academic scholarships but many have continued while paying their own way.

Many great athletes have been developed at the UM swimming and diving programs, including Olympic champion diver Greg Louganis, and 1976 Olympic breaststroke champion David Wilkie (GBR).

Sure thing: Indianapolis is the only formal bidder for the Short Course World Championships, which would be held Oct. 7-10, 2004, about six weeks after the Olympic Games at Athens, Greece.

The plan is to hold the championships at Consecro Fieldhouse, a 20,000 seat indoor arena, in a temporary pool. A decision is due March 20 in Athens, where FINA's 22-member board will meet in conjunction with this year's Short Course World Championships.

Editor: I would like to congratulate you on producing a brilliant magazine. It is by far the best I have read. Nikki Dryden's articles from the October 1999 issue ("Why I was Injured" and "Swimming Etiquette") were fantastic—a must-read for swimmer, parent, and coach.

*Glen Whitchurch,
Tasmania, Australia*

This letter was first published in *The Weekend Australian* on February 5, 2000. Shane Gould, a 1972 triple gold swimming medallist, writes exclusively for *The Australian* and *The Weekend Australian* on swimming and the Olympics. The Australian's website address is: www.news.com.au

Clean sport: Well done Ian, it's not easy. Shane Gould sends Ian Thorpe words of reassurance in an open letter after this week's drugs accusations.

Congratulations on your great swimming recently. Even more so, congratulations on the way you speak and conduct yourself in the public. Oh yes, and well done for being named Young Australian of the Year. There are a lot of added extras to being famous from swimming fast, aren't there?

There have been a lot of papers sold and news airtime given in Australia because of the German coach's comment that your fast swimming could only be done with the aid of performance-enhancing drugs. That must distract you from your focus on swimming in Europe. It is a fine juggling act to get the right balance between public responsibilities and doing what you love. That goes for all aspects of life. I guess there are times when Kieren Perkins would love to be sleeping after a work-out but instead needs to take his daughter to playgroup.

The competition focus you must have is sometimes a selfish thing so it's good that you have some distractions like these unfounded accusations to train you for life.

I read a great saying on a traveller's kombi van in Margaret River where I live: "If you don't tell lies you don't have to remember anything".

Unlike triple Atlanta gold medallist Michelle Smith, who had to tell lies and add whisky to a urine sample in an out-of-competition doping test, you are a "Clean Sport."

Coaches, swimmers, and sports fans are asking why

is Ian Thorpe so good?

You and the German swim team coach Manfred Thiesmann give us the answers. You say you swim fast because of your training and your swimming technique. Manfred Thiesmann says: "Ian has the ideal swimmer's physique—his hands, his feet, his shoulders, his slim waist and soft muscles."

Being better than the rest can be a lonely thing because you're out there like the explorers finding new places and ways of getting there.

But it's so exciting, too. I found it incredibly intoxicating to swim, feeling the water and burning up energy getting to the wall faster than anyone else. The crowds helped with their cheering too, but essentially it was a private, pleasurable quest.

I found difficulty dealing with the public responsibilities of my private joy becoming a public spectacle. That ultimately caused me to retreat from the public eye and explore life other than winning gold medals and breaking world records.

But there was nothing like that pure joy of straining muscles and harmonious co-operation with the spirit (as Alexander Popov has said) of the water.

Medals and records don't really matter as much as the swimming. You can't do it without a love for what you are doing. Never apologize for being very good at what you do. It's okay. It's your job in life for the moment. Accept the fact with humility. Use your greatness to inspire others to greatness within their own sphere of influence.

You are benefitting from a great heritage of Australian male swimmers such as Murray Rose, Jon Konrads and Kieren Perkins. These are gentlemen role models. Eloquent, ethical, outstanding athletes. I see you doing an apprenticeship to emulate these legendary men.

You have a privilege of having great mentors, role models and support structures to help you with the added responsibilities of being "the best."

The attitude of gratitude for your support crew is one you should keep fostering. You're not there on your own singular efforts, as you know.

Success at any time of life can make you drunk with an inflated sense of self importance. Doing community service and learning other life skills besides the swimming will help keep you sober.

When you are good you stand out in the crowd, head and shoulders above the rest. Occasionally rotten tomato-like insults will be thrown at you. In your case you didn't have to duck. The accusation that your performances in the pool are drug assisted isn't anywhere near the mark.

So, well done. You are dealing with this downside of success with your usual openness, politeness and confidence.

Kind regards, Shane Gould

Shane Gould was the female star of the 1972 Munich Olympics, winning three individual golds, a silver, and a bronze. She was 15 at the time; she retired a year later.

Remember ... It's not true until it has been officially denied

DEATH FROM STEROID ABUSE

DR. KOEHLER, RESPONSIBLE FOR HIGH PERFORMANCE SPORT IN MAGDEBURG, DENIES EVERYTHING

Karin Helmstaedt

BERLIN—After the trial of East German swimming doctor Lothar Kipke resulted in a suspended prison sentence and fine, the mood in the courtroom was one of disgust. The man was found guilty of 58 counts of grievous bodily harm for his unscrupulous doping of young female swimmers in the 1970s and 1980s. But the impact of the sentence was more symbolic than punitive.

“(People like Kipke) should be made to provide written explanations to all of the athletes who were under their care, detailing when they were doped, with what substances, and how much they received,” said Giselher Spitzer.

Spitzer, the German sport historian, is conducting a study of East German Secret Police (the Stasi) involvement in the country’s drug-powered sport system. He has called for German courts to demand sworn declarations from doctors involved in the country’s systematic doping program.

“Only that kind of information can help to reduce the health risks of some 10,000 presumably doped East German athletes,” Spitzer added.

If such letters ever were to be ordered by the courts, it would mean a lot of homework for someone like Dr. Eberhard Koehler.

The Leipzig-based doctor has an illustrious past among East Germany’s doping elite, but actively refuses to admit having had any knowledge of the drugs that were handed out to young athletes in the guise of vitamins. Dr. Koehler recently even tried to prevent the distribution of a book (*Anklage: Kinderdoping, Das Erbe des DDR Sports*; English title would be something like *Secret State Doping: The Legacy of GDR Sport*) in which research by a team of Canadian and German journalists mentions him in connection with the tragic death of a swimmer in 1973. Koehler accused the authors of damaging his reputation and attempted—unsuccessfully—to block the book with a court injunction.

The authors tell the story of swimmer Joerg Sievers, a typical product of the state-sponsored sport school in Magdeburg. Having started at the age of 10, Joerg was in the Olympic training group by the time he was 16. But in late 1972, he was told he would have to leave the school because of what

doctors warned was an abnormally enlarged heart. Three weeks after the decision, on Jan. 17, 1973, Sievers was in Magdeburg’s Elbe swimming facility for a “detraining” session. That night, his body was found on the bottom of the pool—after he had been missing for three hours.

Several days later Dr. Koehler accompanied the then head coach Juergen Tanneberger on a visit to the grieving parents. They informed the parents that Joerg had drowned, as the result of a flu infection. Although in shock, his parents knew Joerg had not been sick when they last saw him. What’s more, he had been vaccinated for flu merely six weeks before. There was no further mention of the enlarged heart. Any questions the parents had fell upon deaf ears. They were given no more information. Their son was simply gone.

With new supporting evidence the authors build a case for the hypothesis that Joerg’s death could well have been the result of anabolic steroids he received in the guise of vitamins. Research efforts 25 years after the boy’s mysterious death uncovered an autopsy report that the parents had never seen. Noted in it were details including the “severe thickening of the heart chamber walls,” an “acute infection of the spleen,” and “toxic-infectious damage to the liver.”

The damages are those classically associated with steroid abuse. Further research by Spitzer also found that Sievers’ death was never properly reported to the East German Sports Medicine Services or the Stasi. “It’s as if the boy never existed.” He says this is extremely unusual as the Stasi investigated every such case internally before making any decisions that would affect the flow of information.

Koehler denies having ever visited Sievers’ parents, and says he has never even heard the swimmer’s name. This is surprising given that from 1970 to 1980 Dr. Koehler was the main doctor responsible for high performance sport in Magdeburg. He was the man who oversaw the distribution of Oral-Turinabol, East Germany’s anabolic steroid of choice, to doctors responsible for individual sports teams, swimming, track and field, etc. Those doctors gave the drugs to coaches, who distributed them personally to the athletes. Neither the athletes nor their parents were informed of the possible side effects of the drugs.

And all athletes in national and Olympic training groups were automatically part of the program.

Furthermore, in 1980 Koehler left Magdeburg and went to Leipzig, the site of the country’s secret doping research institute, where he took up the function of chief sport doctor. Along with swimming’s Dr. Kipke, he was one of the key players in Leipzig’s doping circles. Dr. Koehler also worked for the Stasi under the code name “Werner Weiss.” As a trusted informant Koehler was noted for his “willingness in conspiratorial matters” and was considered worthy of top secret information. Today the 61-year-old doctor still practises sport medicine in Leipzig in a private practice.

With the Sievers story coming to light, Koehler is worried about losing his patients. But his efforts to keep it under the rug are in vain: he is currently under investigation by authorities in Germany for his role in East Germany’s complex doping system, and a number of his former colleagues have confirmed his role in the doping hierarchy.

In addition to the legal responsibility that someone like Koehler carries even now, ten years after the collapse of the East German system, there is also a moral responsibility that has to be acknowledged. Some have done it successfully, and saved their reputations, their jobs, and their honour in the process.

In August 1998 a Berlin court found one of Dr. Koehler’s Berlin counterparts, Dr. Ullrich Suender, guilty of having caused grievous bodily harm to young female swimmers. Suender looked after the doping of Berlin’s TSC Sport Club, and when he sat before the judge he admitted as much. He described how doping was treated as a “state secret” and only certain medical circles were allowed to know about the practice and its results. He admitted he had acted wrongly and apologized to his victims.

Dr. Suender came clean.

For Dr. Koehler, who sat in on those same secret discussions, the word itself is beyond comprehension.

The story of Joerg Sievers was told in extensive detail in our June 1995 issue # 209 “Body Engineering.” Karin Helmstaedt and Jorg Sievers were second cousins.

It's Fast, Easy & FREE

Web based e-mail for the entire swimming community

What is SwimMail?

SwimMail is a free internet e-mail account that allows you—swimmers, coaches, officials, parents, and fans—to access your e-mail from any computer in the world with a browser. All you need to do is Sign up and Login. This means while you are at school, at work, at the local public library, or while traveling to swim meets, you'll be able to check your e-mail! SwimMail gives you one central place to store and read all your messages. Your account will have the same messages in it no matter where you check it. And, since your e-mail address looks like: yourusername@SwimMail.com, people can instantly tell you are a swimmer.

SwimMail is Private, Personal & Permanent

Your SwimMail account is accessible only by your secret password which can be changed as often as you like. It's Personal. You can give your account any name you like and because we're not as big as similar services like "Hotmail" you are more likely to get the username you really want, without giving up any of the services. You can change schools, colleges, teams, programs, jobs, or ISPs without having to change your email address. You can move or travel without having to inform your friends of your new e-mail address. Your SwimMail account will stay the same no matter where you go.

So don't delay. Go to www.SwimMail.com and sign up today!
